

Training Process Level 3

2 Rue Henri Barbusse
13001 MARSEILLE

Page 1 on 2

Training name : *Bloodstain Pattern Analysis L3 -
Bloodstain Pattern Expertise Methodology*

Goals :

The Bloodstain Pattern Analysis is the objective study of shape, size, distribution, number of stains and their interactions with the environment to determine the events that are at the origin.

Level 3 training (Bloodstain Pattern Analyst) leads to the interpretation of bloodstains found on a crime scene, writing the results (report) and presentation of these results in court.

These objectives are achieved through the lectures and practical work including the management of a scene, writing a report and defending it in front of a mock Justice Court.

Upon completion of the course the student will be able to conduct :

- organization analysis of sealed and / or crime scene,
- report writing suitable,
- presentation of its results in front of Criminal Courts

This training leads to the functions of Bloodstain Patterns Analyst. He could do the technician work but he focuses his work on the analyse of the result of the technician work of stain identification..

This course is intended to train Bloodstain Pattern experts.

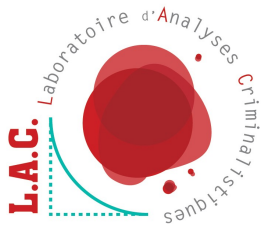

Course length : 16 hours of training, 1 day of work on a mock crime scene, 3 weeks to write the report and 1 hour of mock trial.

Pre-requisites : Students must have completed levels 1 & 2
Blood-letting crime scene experience
Basic and complex taxonomy of bloodstain experience

Trainer : Philippe ESPERANÇA

Course Support : CD of training documentation

Dress code : This program is a combination of classroom and practical exercises; please bring clothing suitable for practical exercises and also for the courtroom testimony.
